

We WIRE for nearly any BRAND

The ESM8/HSM8 super lightweight design makes wearing the microphone more comfortable, even for long periods of time, without using excessive pressure to hold the microphone in place. The soft microphone stem allows for easy adjustment of the microphone's position as you wear the headset. These Headset microphones works great with many wireless transmitters available. The ESM8 & HSM8 can be wired to work with transmitters made by Galaxy Audio[®], Shure[®], Sennheiser[®], AKG[®], Audio Technica[®] and many others.
