

G-SERIES AMPLIFIERS

G-440, G-850 & G-1200

The G-SERIES power amplifiers have been designed to provide great efficiency, dynamics and reliability at a very affordable price, for a variety of fixed and mobile audio applications.

The G-SERIES circuitry and selected components offer excellent sound quality and high fidelity audio reproduction. The compact design improves the price/performance ratio, while the rugged metal chassis guarantees maximum sturdiness. The G-SERIES amplifiers are available in three models.

The G-SERIES amplifiers are equipped with a highly visible LED display system, which provides precise information on signal status in any lighting condition. The connection system includes XLR and TRS 1/4" JACKS for audio input and twist-lock connectors for power outputs. Standard 19" rack mountable sturdy metal chassis makes installation easy while providing maximum protection. The three models of the G-Series deliver the right amount of power to your loudspeakers: the G-440 is 2x145W at 8 Ohms, the G-880 is 2x240W at 8 Ohms, and the G-1200 is 2x400W at 8 Ohms.
