Galaxy Audio offers new EDX frequency agile dual channel wireless microphone system delivering quality sound at an affordable price.

The EDX Series is a dual channel, frequency agile wireless microphone system with a 200-foot range. The EDX features 16 selectable UHF channels on each receiver, IR Sync from transmitters to the receiver and 2 internal antennas (1 for each receiver). The receiver has one 1/4" output and two discrete XLRM outputs on the back of the receiver. The output is controlled by a volume control for each receiver, located on the front of the unit, along with AF / RF and channel indicators. Choice of transmitters include the HH38 Handheld Mic and the MBP38 Body Pack Transmitter with choice of headset microphone or lavalier.

Street Price Starting at \$199.99 and includes choice of two transmitters.
