

Galaxy's New AS-950 Wireless Personal Monitor Is a Frequency-Agile Performer

With its 16 selectable UHF frequencies, 50mW of audio power and included EB4 ear buds, Galaxy's new AS-950 offers high-quality stereo monitoring even in a crowded RF environment.

Use a single transmitter and receiver system to give each person their own monitor mix at a live event, in a recording studio or a classroom. Or choose the optional AS-950-4 Band Pack system with four receivers and one transmitter to allow four persons to share a monitor mix.

The AS-950T transmitter includes a L/R level display, channel up/down select with LCD display, stereo

XLR/1/4" inputs, and headphone output with volume control. The AS-950R receiver offers a 50mW stereo output with RF and stereo indicators. The EB4 ear buds feature titanium drivers, extended bass response and aluminum alloy construction. A Single/Dual Rack mount kit is included.

With its high-quality, frequency-agile performance and highly affordable price, the AS-950 brings personal monitoring to professional musicians, live theaters, houses of worship and schools. Audition the AS-950 in the 2nd quarter of 2019 at a [Galaxy dealer near you](#).
